## Uputstvo za instalaciju/reinstalaciju FX Client aplikacije

Nakon ubacivanja instalacionog CD-a FX clienta, automatski će se startovati Autorun aplikacije, koji izgleda kao na sledećoj slici:

Vrlo je bitan redoslijed kojim se instalira aplikacija.

Redoslijed koji treba pratiti je kao što je postavljeno na gornjoj slici.

- Preduslovi
- FX Client
- PKI i Certifikati

Klikom na Preduslovi otvara se sledeći ekran:

Na tom ekranu je moguće instalirati **Internet Explorer 6.0** i dva **MSXML Parser-a**. Ukoliko je vaš operativni sistem Microsoft XP ili Vista onda već imate instaliranu najnoviju verziju Internet Explorer-a, a ukoliko kliknete na link za instalaciju Internet Explorer-a, a najnoviju verziju već imate instaliranu na računaru izaći će sledeća poruka.

Ovo znači da na računaru imate noviju verziju Internet Explorer-a i da vam ova instalacija nije potrebna i da možete nastaviti sa daljom instalacijom.

Instalacija MSXML Parser-a je vrlo jednostavna samo što treba dodatno uključiti XML SDK kod Parsera 4.0.

Na sledećim slikama je prikazano kako kod MSXML Parser-a 4.0 uključiti XML SDK:
